CHAMPAGNE:

He likes my teeth
My taste for blood
I call him my blessing and wonder why
He's the cigarette smile, deep in my veins
He's the summer sun, the smell of rain

Put on the fire
Hear it sigh
Put on the fire
Watch it die

We run when the sun goes down
We run the night gives us fever

I used to pray like God was listening
I used to drink like God was missing
We're disappearing in all this noise
We're crawling underground while thinking
We'd still have a choice

Put on the fire
Hear it sigh
Put on the fire
Watch it die

We run when the sun goes down
We run the night gives us fever
I breathed so deep it felt like I was drowning
We run he's the champagne under my skin

Cold rain caressing my skin
It comforts me in every state I'm in
He sings to me in black melodies

His salty tears fall from the trees

We run when the sun goes down
We run the night gives us fever
I breathed so deep it felt like I was drowning
We run he's the champagne under my skin
He's the champagne under my skin
He's the champagne under my skin
He's the champagne under my skin

BE GONE:

I put your favourite perfume on
You like me like this
Sing you the darkest songs but melodies I can't kiss
Black nails through your hair
Faith didn't care
She didn't care

I kept you close to my ribs
So I would feel your heart quit
Tell me it isn't real
Falling in the dark straight to a nightmare
I knew I would never love again

There ain't no saving you & me, no
There's no use crying be be be gone
Rest in peace
Rest in peace
There's no use fighting destiny
Rest in peace
Rest in peace
Sit on your grave I'll never leave

I cut my hair
So I could think clearer
Can't stop thinking if you would care

You're covered with stars piercing through my lonely heart
Oh where did you go

There ain't no saving you & me, no
There's no use crying be be be gone
Rest in peace
Rest in peace
There's no use fighting destiny
Rest in peace
Rest in peace
Sit on your grave I'll never leave

There ain't no saving you & me, no
There's no use crying be be be gone
Rest in peace
Rest in peace
There's no use fighting destiny
Rest in peace
Rest in peace
Sit on your grave I'll never leave

BONES & CIGARETTES

Come on come closer to me
Let's dance in the ocean
Let's drown in the sea
You tell me life is beautiful
It isn't that hard

Silly girl doesn't count her blessings
Silly girl wants to be free

Bones & cigarettes is all I want is all I need
I'm like a sad song, strong beat
I can be your skinny bitch if you want me to
I like you being rich
I like you being cruel

We get crazy every Friday night
Breathing each other under coloured lights
Grab my mind black and white
Live and let die
Live in summer die in snow
I need you to be mine
Wherever I go

Silly girl doesn't count her blessings
Silly girl wants to be free

Bones & cigarettes is all I want is all I need
I'm like a sad song, strong beat
I can be your skinny bitch if you want me to
I like you being rich
I like you being cruel

RAIN:

Rock bottom all around me now you got me
I bet that you didn't know
I kinda like the way you're wrapped up all around me
I love the way you pull me down
Spend my time roaming in the dark
I came to find out the lights' too bright
I feel alive whenever living get's hard
I love the way you pull me down
I love the way you pull me down

I'm flying high make it rain
Love the taste of my pain
I don't need a remedy No
Go ahead use all my energy Oh

Wait up, I miss you
Teardrops, scar tissue
Falling to my knees
I love the way you pull me down
I know it's hard but I'm in need of the dark
I go way to far, until I'm broken until I'm stuck

No no I'm no saint indeed
I'm not in touch with my sanity
Don't make it go to waste
Don't ever go away

I'm flying high make it rain
Love the taste of my pain
I don't need a remedy No
Go ahead use all my energy Oh
I'm flying high make it rain
Love the taste of my pain
I don't need a remedy No
Go ahead use all my energy Oh

You know that I am stronger fly with me
You know that I'm no longer die with me
You know that I

I'm flying high make it rain
Love the taste of my pain
I don't need a remedy No
Go ahead use all my energy Oh
I'm flying high make it rain
Love the taste of my pain
I don't need a remedy No
Go ahead use all my energy Oh

TARANTINO:

I don't understand why I feel so lonely
When you lay close to me
And I don't understand why I get so angry
When all you do is breath

Lay your head where my heart used to be
Lay your head

Memories when you named all the stars for me
Memories we were like a Tarantino movie
You and me like it's always been that way
Memories in the blue'est summer sea

Collect my bones
and keep them tight together
Don't you dare to leave me

Lay your head where my heart used to be
Lay your head

Memories when you named all the stars for me
Memories we were like a Tarantino movie
You and me like it's always been that way
Memories in the blue'est summer sea
Summer sea
Summer sea

Lay your head where my heart used to be
Lay your head where my heart used to be
Lay your head where my heart used to be
Lay your head
