

LYRICS ALBUM LAKSHMI

1. Only For The Wicked

Written: Lakshmi Swami Persaud, Rogier Wagenaar

Silence never disappears. Inside the crowd in my head.
I only scream because I care. I only laugh when life get's hard.
Do you wanna stay, don't just walk away
I can keep you safe from all the wrong ways
Silence never disappears
Except when I'm with you

I know a place to go
It's only for the wicked
I know a place to go
It's only for the wicked

Baby we can drive away
I don't wanna overthink our love
We will follow red skies
That are floating above us
You you you say you'd never walk away
I like the way you always wanna play
Baby you can drive my car and I'll show you the way

I know a place to go
It's only for the wicked
I know a place to go
It's only for the wicked

I know a place to go
It's only for the twisted
I know I know a place to go
Let's go for the weekend

Our tainted love never grows apart
I like your mistakes, you like me anyway

I know a place to go
It's only for the wicked
I know a place to go
It's only for the wicked

I know a place to go
It's only for the twisted
I know I know a place to go
Let's go for the weekend

It's only for the wicked

2. Ahaa

Written: Lakshmi Swami Persaud, Rogier Wagenaar

Do you wanna love me
Or do you like the way it sounds
Do you really wanna trust me
While the world is burning down
Do you wanna love me
When I'm roaming around
Do you really wanna love me
When I make annoying sounds

Ahaa Ahaa Ahaa
Baby come & get it
Ahaa Ahaa Ahaa
You got me singing like no one did

We could be alright though
We could be alright though
When the lights go out, nobody really cares
If we won't go to the party don't feel like being arty
I wanna feel alright
If you're looking for someone who'll take you to paradise
Can I come with you
I'll treat you really nice

Ahaa Ahaa Ahaa
Baby come & get it
Ahaa Ahaa Ahaa
You got me singing like
Ahaa Ahaa Ahaa
If you really want it
Ahaa Ahaa Ahaa
You got me singing like no one did

Leave all behind, your messed up mind
Climb high in clouds
Fall down, fall down
We kiss, we kill
Just for the sake and for the stupid thrills
We always will

Ahaa Ahaa Ahaa
Baby come & get it
Ahaa Ahaa Ahaa
You got me singing like
Ahaa Ahaa Ahaa
If you really want it
Ahaa Ahaa Ahaa
You got me singing like no one did

3. I'll be on my way

Written: Lakshmi Swami Persaud, Rogier Wagenaar

Sometimes I got to do what's only good for me. Yeah me.
Eyes are piercing through my back, you don't know I see.
Yeah eah, Yeah eah. Get the fuck out of my way
Yeah eah, Yeah eah. I could run this place

Fly faster than the plains up high
I could swim a million miles
Shine brighter than the stars will try
I'll be on my way
Travel in my time machine
Working hard to nail my dreams
Passion in my bloodstream
I'll be on my way

Some say I'm quite obsessed but that's how I become the best
Got my bulletproof vest and my soldiers on the crow's nest
Standing in the ring, beated black and blue like you
Stand up, jump high, having the time of my life
Yeah eah Yeah eah. So much hours in a day
Yeah eah Yeah eah. You waste your life away

Fly faster than the plains up high
I could swim a million miles
Shine brighter than the stars will try
I'll be on my way
Travel in my time machine
Working hard to nail my dreams
Passion in my bloodstream
I'll be on my way

4. Sailing

written: Lakshmi Swami Persaud
[Strings: Pauline Koning]

I try to sleep but then it all comes back to me
I try to focus, to breath
But it's getting harder and harder you see
You're sailing further and further from me

Didn't you notice when the world stopped turning
Was it all for nothing, my love?

Forever keep you in the heart behind my ribs
I'll never leave you until the dark will take me too
I see you changing the older we get
Hanging on hopes and dreams.
But it's getting harder and harder you see
You're sailing further and further from me

Didn't you notice when the world stopped turning
Was it all for nothing, my love?
Didn't you know we were standing on the edge of something wonderful
Were you done?

Close your eyes
You'll be blinded by summer sun
Close your eyes
Stars in heaven, stars in heaven

Didn't you notice when the world stopped turning
Was it all for nothing, my love?
Didn't you know we were standing on the edge of something wonderful
Were you done?

5. On the run

Written: Lakshmi Swami Persaud, Pascal Voorbraak

I think of warm places, lovers holding hands
Blue beaches, drunk faces, bare feet digged in the sand
I wanna dance, sunglasses little hearts, cruising to the sky
Grey walls with streetart
Sun goes down when we start
I Always hate to say goodbye

It's oh so hard, it's oh so wrong
Don't know where I belong
It's oh so hard I know it's wrong
But I'm always on the run

I thought that I'd live forever and a day
I grew older, got wilder
My heart needs to find it's way
It's oh so hard, it's oh so wrong
Don't know where I belong
It's oh so hard I know it's wrong
But I'm always on the run

I know I know I'm acting in the darkest ways
All I need to do is to hold on
The anger goes and and the rain falls
I'll go I'll go I'm always in the wrong play
Don't you wanna see how the stars die
In the black sky

It's oh so hard, it's oh so wrong
Don't know where I belong
It's oh so hard I know it's wrong
But I'm always on the run

6. What the hell

Written: Lakshmi Swami Persaud, Bart v Liemt, Will Knox

Don't stop just keep on talking
I like you in a funny way
It's the kind where I'm not laughing
My heart runs but my body stays

I can't turn around

You remind me of someone I knew
Had to hit him black & blue
It was hell that I had to climb through
Just to fall down heaven's chute

I can't turn around
And I can't slow down

What the hell are you waiting for
Kick & scream and break down the door
What the hell are you waiting for
Our kind of love makes the neighbours talk

Don't stop just keep on walking
You left me in an awful way
I got an aftertaste of poison
A bitter icing on the cake

Come back when my heart is sinking
Light's on in the dead of night
We'll scream till the city's blinking
We'll let 'm know it's worth the fight

What the hell are you waiting for
Kick & scream and break down the door
What the hell are you waiting for
Our kind of love makes the neighbours talk
What the hell are you waiting for
Down & out and then hit the floor
What the hell are you waiting for
I think we've been here before
I want to have it all
Like curtain's call
Rise it up and then let it fall
You need to give me more
Like summer storm
Dry it up and then let it pour

What the hell are you waiting for
Kick & scream and break down the door
What the hell are you waiting for
Our kind of love makes the neighbours talk
What the hell are you waiting for
Down & out and then hit the floor
What the hell are you waiting for
I think we've been here before

7. Take me on a trip

Written: Lakshmi Swami Persaud
[Strings: Pauline Koning]

I watched the sun in your eyes for hours
The taste of lemonade in brightest colours
We danced our way to the pale moonlight

I loved the way you'd stare, it was deafening
For love I never cared but we were happening
We danced our way to the great sunshine
I breath in the smoke that made me sigh

Aimless days I spent with you

Come on and take me, take me to all the stars
Make my body burn, tear me apart
Come on and break me, break me
Let me know what love feels like
Take me on a trip to the darker side

The water changed her colours in the night
You said I looked like her in the way I cry
I washed my hands, my skin, my bones in the sea
I loved you with all my heart, so quietly

Aimless days I spent with you
You liked my games, I liked yours too

Come on and take me, take me to all the stars
Make my body burn
Tear me apart
Come one and break me break me
Let me know what love feels like
Take me on a trip to the darker side

Take me on a trip to the darker side
Take me on a trip to the darker side
Take me on a trip to the darker side

8. Live Forever

Written: Lakshmi Swami Persaud
[Strings: Mara Tieleles]

I saw you right before I went to bed
Ignored you, I must be some kind of mad
You crawled to me, ran to me
I tried to fight back but you'd always always always come back
No one has ever lived this crazy way
Your blue eyes died in front of me
Sometimes we used to play these games
I said I don't don't don't like the taste

Let me breath you like we used to do
Or I will drown gasping
Make me love you, taste me
Bittersweet never killed anyone

I saw you when my dreams turned bad
Enlight you when my sadness needs to be fed
I write with you, sing you, you're my favourite melody
When I'm in misery

Let me breath you like we used to do
Or I will drown gasping
Make me love you, taste me
Bittersweet never killed anyone

I will never live forever
So come on what're you waiting for
I don't wanna die once more
I will never live forever
So baby why won't you adore me
I wanna dive so deep

You're always talking and talking
In the back of my mind
In the moonlight. In the moonlight.

9. Tarantino

Written: Lakshmi Swami Persaud

I don't understand why I feel so lonely
When you lay close to me
And I don't understand why I get so angry
When all you do is breath

Lay your head where my heart used to be
Lay your head

Memories when you named all the stars for me
Memories we were like a Tarantino movie
You and me like it's always been that way
Memories in the blue'est summer sea

Collect my bones
and keep them tight together
Don't you dare to leave me

Lay your head where my heart used to be
Lay your head

Memories when you named all the stars for me
Memories we were like a Tarantino movie
You and me like it's always been that way
Memories in the blue'est summer sea
Summer sea
Summer sea

Lay your head where my heart used to be
Lay your head where my heart used to be
Lay your head where my heart used to be

10. The Lost Kult

Written : LudoWic, Lakshmi Swami Persaud

All that I see are people passing by
Like fast cars, crashing into the light
All that I hear, crazy lullabies
Fights in my head
Crashing into the light

Rise up we could go anywhere
Don't you wanna live in the air?

At least I've tried. Yeah.
At least I fight. Yeah.
Starry eyed. Yeah.
At least I've tried.

All that I see are people passing by
Like fast cars, crashing into the light
Rise up, we could go anywhere
Wake up, we could live in the air

At least I've tried. Yeah.
At least I fight. Yeah.
Starry eyed. Yeah.
At least I've tried.
