

Heads or Tails

Heads or Tails
Human whales
of a lie that sales

Finger on the trigger
no more lying mine is bigger
no more jails
no more tricks
sick sick six
take a risk
mighty seven
could reach out
for XL Even (11)

twist and shout
let Me Out
Roll the dice
virtue or vice
truth or lies
money buys
Finger on the trigger
crystal on my ticker
shooting pies in the skies
showing God in disguise
shouting peace
come in please
Heads or tails
fabulous fairytales
Holy Grails
Wheels on the rails
keep on turning
keep on burning
Go by the flow
row the Rotten Row
take the pain
won't be in vain
Slow train to Spain
go down memorylane
keep on turning
All add in sane

Zain Zain Zain
Ouvrez le chien
Open the dog
so we can walk
For God we stalk
Heads or tails
O feel ya fails
U top Ya mails
twee twee twitter
that twinset didn't fit her
so she threw it
in the litter
by the day she's growing
bitter that the dog
never bit her
Bide your Time
for the Love s.o.s.ublime
but that thought
never hit her
Heads or Tails
Tails wag back
Heads shake human lack
tales tell U man wreck
Stripped Bare-to the Bone
Rings God on the phone
Finger on the trigger
Hell low U alone
Hello U all One
New Times have begun
And We All have just won
While a New Time rises
Where we all won first prices
The observer realizes
the true meaning of a crisis
sick sicker six

escape from the matrix
the blue pill or the red?
take the line 6 helix
take the yellow one instead
then U eat the cake while I take the bread
Finger on the trigger
U shoot with air, but I shoot with lead
It's not fair that U got bigger
while my shot lead to my death
But it seems it's a bad dream
that U ate the cake while I am awake
Throw the dice, very nice,
heads or tails, a pair o'dice
heads or tails, a pair o'dice
heads or tails, a pair o'dice
